

BELAPRASAD BATHAV

Application Support Engineer — Python Developer — Technical Support

Chandrapur, Maharashtra, India

bathavbelaprasad@gmail.com — +91 7517967913 — GitHub — LinkedIn

PROFILE

Detail-oriented Data Science Engineering graduate with hands-on experience in Python, SQL, application troubleshooting, API development, debugging, and data automation. Experienced in investigating technical issues, documenting findings and solutions, monitoring application/data workflows, and collaborating with teams to resolve problems. Strong foundation in Python programming, AI/ML, REST APIs, and software problem solving. Seeking an entry-level Application Support Engineer role to support critical business applications and develop expertise in enterprise application support.

TECHNICAL SKILLS

Programming	Python, SQL, JavaScript, C/C++ Fundamentals
Application Support	Application Troubleshooting, Debugging, Issue Diagnosis, Root Cause Analysis Fundamentals, Incident Investigation, Technical Documentation, Issue Escalation
Python	Pandas, NumPy, Automation Scripts, Exception Handling, File Handling, Data Processing, Debugging
APIs & Development	Flask, REST APIs, API Troubleshooting, HTTP/JSON Fundamentals, HTML, CSS, JavaScript
AI / Data	AI/ML Fundamentals, NLP, Machine Learning, TensorFlow, scikit-learn, Data Processing, Sentiment Analysis
Databases	MySQL, SQL Server (SSMS), PostgreSQL, SQL Queries, Data Validation, ETL Fundamentals
Tools	Git, GitHub, VS Code, Jupyter Notebook, Power BI, Excel
Core Skills	Problem Solving, Analytical Thinking, Communication, Team Collaboration, Troubleshooting, Documentation, Adaptability

PROFESSIONAL EXPERIENCE

Data Analyst Intern – ConnectSoft Infotech Pvt. Ltd.

Dec 2024 – Jun 2025

Warora, Chandrapur, Maharashtra

- Developed Python and SQL-based automation workflows for processing 10,000+ weekly records, reducing manual processing effort and improving workflow reliability.
- Investigated data and application-related issues using Python, SQL, validation checks, and systematic debugging techniques.
- Documented technical issues, findings, solutions, and preventive measures to support recurring issue resolution and continuous improvement.
- Prepared detailed reports for engineering teams with issue descriptions, reproduction steps, expected behavior, and observed results.
- Collaborated with cross-functional teams to investigate and resolve product-related issues and improve data workflows.
- Monitored reporting workflows and identified data inconsistencies requiring investigation, correction, or escalation.

TECHNICAL PROJECTS

AI-Powered Driver Safety System

Python, TensorFlow, OpenCV, Flask, REST API

- Developed a real-time Python-based computer vision application using TensorFlow and OpenCV for driver drowsiness detection.
- Built a Flask web application with REST APIs, modular components, and exception handling to support reliable application execution.
- Debugged application behavior, API integration, input handling, and runtime issues during development and testing.
- Implemented an automated alert mechanism and handled exceptions to improve application reliability.

Customer Sentiment Analysis & NLP Automation

Python, NLP, SQL, Power BI

- Developed a Python-based sentiment classification system for analyzing customer feedback, achieving 88% classification accuracy.
- Built SQL-based data processing workflows and performed data validation and transformation for structured datasets.
- Investigated data inconsistencies and created visual monitoring dashboards to identify trends and potential issues.

Car Service Data Management System

Python, SQL Server, Power BI, Excel

- Designed and optimized relational database queries in SQL Server to investigate and process 1,000+ service records.
- Used Python for exploratory analysis, data validation, and identification of patterns and inconsistencies in service data.

EDUCATION

Bachelor of Engineering – Data Science Engineering

G.H. Raison College of Engineering and Management, Nagpur

CGPA: 7.88/10

2022 – 2025

Diploma in Computer Engineering

Ballarpur Institute of Technology, Maharashtra

79%

2020 – 2022

CERTIFICATIONS

Data Analytics Essentials – Cisco/Credly — Data Analytics and Visualization – Accenture (Forage) — Data Visualization – Tata (Forage) — Data Science Workshop – IIT Bombay
